

Editorial	Conference with the international participation «Medical & Biological Informatics and Cybernetics: Steps of the Development» 20–23 April, 2011, Kiev, Ukraine	5
Original Articles		
Medical informatics. Theory	A. V. Martynenko, M. Martynenko Mathematical approach to information and knowledge	7
Medical cybernetics. Modelling of physiological functions <i>Modelling of heart work Modelling of self-regulation mechanisms</i>	I. Khayimzon, E. Bondarchuck The electrophysiological model of the heart (virtual heart)	10
	Yu. Lyakh, O. Gorshkov, V. Gurjanov, Yu. Vihovanets Human vertical posture mechanisms modelin	16
Information technologies in experimental physiology	O. Yu. Mayorov Evaluation of individual typological features of behaviour and resistance of intact white male rats on the basis of the factor model of the normal ethological spectrum of parameters in the open-field test	21
Information technologies in psychophysiology	A. K. Osnitskiy, S. Yu. Tarasova Prenozological control of psycho physiological desadaptation of young scholars	33
Telemedicine <i>New telemedical technologies</i>	K. Storogenko The world of medicine without borders. Technologies Cisco in area of «intellectual» public health services	46
<i>Telemedical monitoring</i>	O. I. Orlov, R. M. Baevsky, V. I. Pougatchev, A. P. Berseneva, A. R. Baevsky, A. G. Chenikova, T. A. Zenchenko Telemedical aspects in assessing the risk of disease in healthy people. Preliminary results of longitude medical environmental investigations	50
Information technologies in functional diagnostics <i>Computer cardiography</i>	A. M. Akhmetshyn, K. A. Akhmetshyn Information possibilities of ECG analysis and mapping at singular value decomposition basis of embedded vectors	58
	A. Frolov, A. Mrochek, A. Voitovich, M. Voitikova, T. Voikhanskaya, O. Melnikova, A. Vorobiev Analysis of atrial electrical activity for atrial fibrillation diagnostics	65
Analysis of Images <i>Information technologies for analysis of images in clinic</i>	N. I. Zabolotna, S. V. Pavlov, B. P. Olijnychenko Phase Mueller-matrix tomography system of polucrystalline networks of biological tissue	70
	L. S. Terentyeva, V. N. Sokolov, S. G. Legesa, L. V. Anishchenko, Y. V. Stasyuk, V. D. Sokolova Beam diagnostics tumors and psevdotumors diseases orbits	76
Information technologies in clinic <i>Distance radiotherapy</i>	V. P. Starenkij, L. A. Averjanova, L. L. Vasiljev, U. A. Orlova The analysis of informational and technical features of up-to-date teleradiotherapy treatment planning systems	79
Pharmacoinformatics	A. Yu. Poghosyan Densitometric and radiovisiographic motivation of the using the beeswax as membrane for guided tissue regeneration in experiment	83

Pharmacoinformatics	N. Ya. Golovenko, V. E. Kuz'min, A. G. Artemenko, M. A. Kulinsky, P. G. Polishchuk, I. Yu. Borisyuk Prediction of bioavailability of drugs by the method of classification models	88
	L. A. Perekhoda, V. A. Georgiyants Definition of correlation «structure–anticonvulsant activity» of the derivatives of 1-aryl-4-R-5-methyl(amino)-1,2,3-triazol(1H)	93
Information technologies in to medical genetics	M. Ya. Eingorin Matrixes and symmetry in structures grammars and genes	98
Standardization of information medical technologies	T. V. Zarubina, S. L. Shvyrev Russian HL7 Affiliate: first steps, issues and perspective	106
	O. Kovalenko, G. Pezentsali, K. Tsarenko Problems of standardization in the field of medical information technologies	111
Scientific Societies of Medical Informatics	The Ukrainian Association for Computer Medicine (UACM)	114
	International Medical Informatics Association (IMIA)	117
	European Federation for Medical Informatics (EFMI)	119
	The European Association of Healthcare IT Managers (HITM)	120
Anniversaries	Nicolaj M. Korenev Anniversary	121
	Oleg Yu. Mayorov Anniversary	123
Medical Informatics: Events, Conferences	24th European Medical Informatics Conference – MIE2012 26–29 August, 2012, Pisa, Italia	125
	14th World Congress on Medical and Health Informatics – Medinfo 2013 20–23 August, 2013, Copenhagen, Denmark	126
	Calendar of events	127
New books	New books on medical informatics, statistics and epidemiology, medical imaging, computer diagnostics methods	129
The Legislation	K. P. Vorobyov Recommendation about results representating of clinical researches in dissertations and journal publications. A part 2. The project of references <i>The article is open to discussion</i>	132
